

Xometry Manufacturing Partner Earns \$1 Million Through the On-Demand Platform

September 6, 2017

GAITHERSBURG, Md.--([BUSINESS WIRE](#))--[Xometry](#) today announced a major milestone with a member of its Manufacturing Network earning \$1 million in revenue. [Zero Hour Parts](#) of Ann Arbor, MI, has earned \$1 million through the Xometry Manufacturing Partner Network in only 15 months.

"We are thrilled to see our manufacturing partners achieving this type of success through the platform. We're focused on driving the business of American manufacturing and we're extremely proud to have Zero Hour surpass the \$1 million mark. As our company and Partner Network grows, we look forward to seeing others reach this exciting milestone," says Xometry CEO, Randy Altschuler.

This achievement is reflective of Xometry's rapid growth in 2017, with the company recently surpassing 6,000 customers spanning multiple verticals, including aerospace, automotive, consumer, medical devices and industrials. Xometry has already tripled its 2016 bookings during the same time-period a year ago, and expanded its manufacturing capacity by more than five times since the end of last year.

The Xometry Partner Network currently consists of more than 600 manufacturers across the United States. For manufacturers, access to jobs outside of their typical ecosystem opens up the possibility for business growth, increased revenue, and better forecasting.

Xometry's current manufacturing capabilities include CNC machining, sheet metal, 3D printing, and casting jobs. The Xometry Partner Network is open to all manufacturers, though membership is limited based on a thorough vetting and approval process.

About Xometry: Xometry is driving the business of American manufacturing through a proprietary software platform which offers on-demand manufacturing to a diverse customer base, ranging from startups to Fortune 100 companies. We provide product designers and engineers the most efficient way to source high-quality custom parts, with 24/7 access to instant pricing, expected lead time and manufacturability feedback. Our nationwide network of partner manufacturing facilities enables us to maintain consistently fast lead times while offering a broad array of capabilities, including CNC Machining, 3D Printing, Sheet Metal and Urethane Casting. Xometry's customers include BMW, General Electric, NASA and the United States Army.
