

Dan Robinson Joins Xometry to Lead Operations

October 5, 2017

Industry veteran joins fast-growing on-demand manufacturing platform

GAITHERSBURG, Md., Oct. 5, 2017 /PRNewswire/ -- [Xometry](#) the leading on-demand manufacturing platform, announced today that Dan Robinson has joined as Senior Vice President of Operations. Robinson joins from Sea Ray, a division of the Brunswick Corp, where he managed over 600 employees as the Director of Operations. He will report directly to Randy Altschuler, CEO and Co-Founder of Xometry.

Robinson, a member of the leadership team, will play a key role in building Xometry's Operations team and growing its manufacturing capabilities. He will be responsible for customer service, quality control, shipping and the Manufacturing Partner Network of over 600 small manufacturers across the United States. He will focus on ensuring the highest quality standards and on-time performance for all Xometry parts.

"We are excited to have Dan on the team. His experience in engineering, program management and manufacturing will be invaluable to us as we continue our rapid growth," said Altschuler. "He'll focus on ensuring our operations meet the highest demands of our customers. Dan's experience lends itself perfectly to this task."

"I have been impressed with the growth of Xometry over the last few years and am looking forward to joining the team," said Robinson, who will relocate from Florida to Xometry's Maryland headquarters. "The opportunity to scale the company's operations to meet market demand is one that I am eager to seize."

Dan holds a BS in Mechanical Engineering from the Georgia Institute of Technology and is a PMP certified Project Manager.

About Xometry

Xometry is driving the business of American manufacturing through a proprietary machine learning-based software platform which offers on-demand manufacturing to a diverse customer base ranging from startups to Fortune 100 companies like BMW and General Electric. We provide product designers and engineers the most efficient way to source high-quality custom parts, with 24/7 access to instant pricing, expected lead time, and manufacturability feedback. Xometry orchestrates a nationwide network of hundreds of partner manufacturing facilities that enables it to maintain consistently fast lead times while offering a broad array of capabilities, including CNC Machining, 3D Printing, Sheet Metal, and Urethane Casting.
