

Xometry Simplifies Custom Manufacturing Supply Chain, Launches Xometry Supplies

January 15, 2019

Digital Manufacturing Marketplace Expands to Include Materials, Tools and Industrial Products

GAITHERSBURG, Md. and LEXINGTON, Ky., Jan. 15, 2019 /PRNewswire/ -- Xometry, the largest online marketplace for custom manufacturing, announced today the launch of [Xometry Supplies](#). Xometry will help its 2,500 manufacturing partners simplify their supply chain by providing relevant materials, tools and industrial supplies when they accept jobs.

"Xometry Supplies is a natural extension of our efforts to provide our partners with both jobs and lower prices for their materials and tools," said Xometry's Co-Founder and CEO Randy Altschuler. "Ultimately our AI-driven algorithms will offer what our partners need when they need it, helping reduce not only cost but lead time. We will use these algorithms to make it easier and faster for manufacturers to get competitive pricing and fast delivery from one place, so they can focus on making high quality parts for customers."

To support this new business line, Xometry has established a materials logistics hub in Lexington, KY and acquired Machine Tool & Supply of Jackson, TN, a leading regional tool supplier with 30+ years of operational experience to accelerate its go-to market effort for tooling and industrial supplies.

Ramona Yates, the CEO of Machine Tool & Supply, said "We're thrilled to join the Xometry team. Xometry shares our commitment to serving the shops that are the backbone of American manufacturing. The Xometry platform will let us more productively contribute to the profitability of this critical part of the our economy."

Drura Parrish, President of Xometry Supplies, stated "the acquisition of Machine Tool & Supply allows Xometry to provide not only revenue for our partners but also the opportunity to lower their cost to manufacture, a win-win for both our partners and our customers."

Xometry now offers our manufacturing partners the ability to take advantage of competitively-priced materials with compressed processing time, same-day shipping on standard cuts, and next-day shipping for most custom cuts.

About Xometry

[Xometry](#) is the largest marketplace for custom manufacturing, connecting companies with optimal manufacturing solutions through proprietary AI algorithms. Xometry provides on-demand manufacturing and industrial supply materials to a diverse customer base, ranging from startups to Fortune 100 companies. Our nationwide network of over 2,500 partner manufacturing facilities enables us to maintain consistently fast lead times while offering a broad array of capabilities, including CNC Machining, 3D Printing, Sheet Metal Fabrication, Injection Molding, Die Casting, Stamping, Extrusion, and Urethane Casting. Xometry has over 13,000 customers, including BMW, General Electric and NASA.
